OVERVIEW

AlgoBoost Society (ABS) is a student-led initiative at the University of St Andrews, dedicated to advancing problem-solving skills and supporting career development in computer science and software engineering.

Our mission is to empower students by offering training in data structures, algorithms, technical interview preparation, and career guidance. Through workshops, competitions, and networking opportunities, we create an environment where students can learn, collaborate, and grow into future software engineers and innovators.

Key activities:

- Lecture-style data structures & algorithms (DSA) talks
- Collaborative problem-solving tutorials
- Mini-competitions and hackathons
- Interactive coding challenges focused on technical interview preparation

WHY PARTNER WITH US

Sponsoring AlgoBoost provides companies with a unique opportunity to engage directly with motivated and talented students at one of the UK's most prestigious universities.

Benefits for Sponsors:

- Engage with top tech talent at the University of St Andrews
- Increase brand visibility among aspiring software engineers
- Early access to skilled candidates for internships and graduate roles
- Showcase your company's industry expertise through guest talks, mentorship, and workshops
